Piecing Instructions:

1. Arrange strips following the diagram below (or to your liking), moving each strip up or down by 1-3" increments to achieve the 'bargello' effect. Using a design wall for this step would be helpful.

2 ½"	2 ½"	2 ½"	3 ½"	2 ½"	2 ½"	2 ½"	3 ½"	2 ½"	3 ½"	2 ½"	3 ½"	2 ½"	2 ½"	2 ½"

2. With right sides together, pin first two strips together at the desired height increment and sew together. Continue adding strips in the same manner. It is recommended that you sew every other row starting at the opposite end to avoid skewing of the strips in one direction.
3. Once all strips have been sewn together, trim the top & bottom of the quilt top at the shortest strip. NOTE: The finished length of your quilt will depend on the curves in your bargello effect. The deeper you make your curves, the shorter your quilt length will be.
4. Layer quilt top with batting and backing. Quilt as desired.
5. Join binding strips using diagonal seams. With wrong sides together, fold in half along the length of the strip and press. Bind using your favorite method.
